

## **9.1.3 – Making Relationships Work**

### **Handout A**

Working in pairs, partner one gets the first list. Partner two must not see it. Partner one must describe each of the 10 words, one at a time without using the actual word and keep trying until their partner guesses it. When they have achieved all ten, they shout DONE! Everyone keeps going until they finish. Then swap and partner two uses their secret list.

#### **Player One's List**
